# KISS-P pendant luminaire

KISS-P illuminating part is achieved based on the traditional grid design, using LED technology and optimizing the structure and anti-glare design, lens and high reflectivity PC molding material built-in to improve the uniformity and efficiency of light. Middle layer equips with a diffuser plate and a prism transparent plate to achieve uniformity of illumination and reduce glare value to less 16 for UGR .The outermost layer is further equipped with a square anti-glare cover to perform CUTOFF treatment on the residual light. Achieve a uniform, soft, comfortable and low glare lighting effect. Equip with high-power indirect illuminating to provide much more comfortable lights for ambient space via wider beam angle. KISS-P total power 60W, 30W direct lighting and 30W indirect lighting, light efficiency reach 100LM/W. Support DALI dimming, 1-10V dimming, and support wireless control system, such as CASAMBI and HCL function which can be realized with the DALI-DT8. KISS-P with linkable design, no gap and no light come out from the connection part of the diffuser plate. The inside of the lamp is equipped with input and output connectors, connector accessories are also well equipped in the package. The orderly arrangement of KISS-P can achieve a comfortable space, low glare and uniform lighting effect.
Features

Array grille design, traditional but delicate design

Comfortable direct light and indirect light, UGR < 16

Linkable and without light gap at joint parts

Support DALI and 1-10V Dimming

Support tunable white

Support CASAMBI

5 years warranty

Application Areas

For cell office, open plan office, meeting room and other office space.

1124/1404mm
