

# Ceiling Lights Installation instructions

Rotate the ceiling box counterclockwise and remove it from the lamp body

Separate the terminals

Drill three matching holes evenly in a 420mm diameter circle on the ceiling according to the size of the expansion screw plugs used.

Install the expansion screw rubber plug (Gecko)

Thread the wires through the hole in the middle of the ceiling box.

Secure the ceiling box to the ceiling with 4mm diameter screws.

Connect the cable (make sure the power is off, AC200-240V).

Attach the safety rope to the wire rope of the lamp body

Pair the terminals

Align the three screw caps on the lamp body with the holes on the ceiling box and rotate them clockwise (about 10°) until they can no longer rotate.

If the lamp body becomes slightly loose when pushed upward, it means it has been rotated in place.

# Pendant lamps Installation instructions

1 Rotate the upper ceiling box in anti-clockwise direction, and separate the ceiling box and lamp body

2 Fix 3 nos steel rope clamps to the ceiling box by M4 screws

3 Insert the cable to the though the hole
